Update on the Dengue Situation in the Western Pacific Region & the Americas

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. [Western Pacific region data](#) are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People's Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by **WHO's Division of Pacific Technical Support**. Data from the Americas are drawn from the **Pan American Health Organization's** [PLISA Health Information Platform for the Americas](#). Data for Indonesia, Thailand, and Myanmar are drawn from **ASEAN Biodiaspora Virtual Center's** [weekly reports](#). Information is reported based on countries' standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

Follow us on:

Western Pacific - Northern Atmosphere

Cambodia

As of Week 36 of 2023, 1266 cases with 0 deaths were reported, for a total of 20327 cases and 37 deaths to date.

China

As of epidemiological Week 30 of 2023, 1604 dengue cases were newly reported, leading to a total of 1708 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Indonesia

In Week 38 of 2023, 7651 dengue cases and 53 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 38) is 66849. There have now been 482 deaths reported in 2023.

Laos PDR

As of epidemiological Week 37 of 2023, 1200 dengue cases were newly reported, leading to a total of 24556 cases. 1 dengue-related deaths were reported this week, for a total of 17 dengue-related deaths to date.

Malaysia

As of epidemiological Week 36 of 2023, 2284 dengue cases were newly reported, leading to a total of 82485 cases. 2 dengue-related deaths were reported this week, for a total of 59 dengue-related deaths to date.

Myanmar

During epidemiological Week 28 of 2023, there were 4968 dengue cases reported. 23 dengue-related deaths were reported in Week 28. The cumulative number of dengue cases reported to date is 6685 cases. As of epidemiological Week 28, a total of 30 deaths due to dengue have been reported.

Philippines

As of epidemiological Week 34 of 2023, 893 dengue cases were newly reported, leading to a total of 111813 cases. 31 dengue-related deaths were reported this week, for a total of 421 dengue-related deaths to date.

Singapore

As of Week 38 of 2023, 303 cases with 0 deaths were reported, for a total of 7061 cases and 0 deaths to date.

Thailand

During epidemiological Week 40 of 2023, there were 4346 dengue cases reported. 3 dengue-related deaths were reported in Week 40. The cumulative number of dengue cases reported to date is 106548 cases. As of epidemiological Week 40, a total of 101 deaths due to dengue have been reported.

Viet Nam

As of epidemiological Week 37 of 2023, 5616 dengue cases were newly reported, leading to a total of 87719 cases. 1 dengue-related deaths were reported this week, for a total of 24 dengue-related deaths to date.

Western Pacific – Southern Atmosphere

Australia

During epidemiological Week 41 of 2023, there were 16 dengue cases reported. 0 dengue-related deaths were reported in Week 41. The cumulative number of dengue cases reported to date is 196 cases. As of epidemiological Week 41, a total of 1 deaths due to dengue have been reported.

Cook Islands

As of epidemiological Week 17 of 2023, 4 dengue cases were newly reported, leading to a total of 23 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

French Polynesia

As of Week 8 of 2023, 0 cases with 11 deaths were reported, for a total of 0 cases and 0 deaths to date.

New Caledonia

As of Week 38 of 2023, 0 cases with 0 deaths were reported, for a total of 4 cases and 0 deaths to date.

Wallis and Futuna

During epidemiological Week 45 of 2023, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 45. The cumulative number of dengue cases reported to date is 68 cases. As of epidemiological Week 45, a total of 0 deaths due to dengue have been reported.

The Americas

Antigua and Barbados

As of epidemiological Week 32 of 2023, 22 dengue cases were newly reported, leading to a total of 22 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Argentina

During epidemiological Week 40 of 2023, there were 186 dengue cases reported. 0 dengue-related deaths were reported in Week 40. The cumulative number of dengue cases reported to date is 123093 cases. As of epidemiological Week 40, a total of 65 deaths due to dengue have been reported.

Aruba

In Week 32 of 2023, 1 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 32) is 10. There have now been 0 deaths reported in 2023.

Bahamas

During epidemiological Week 41 of 2023, there were 16 dengue cases reported. 0 dengue-related deaths were reported in Week 41. The cumulative number of dengue cases reported to date is 196 cases. As of epidemiological Week 41, a total of 1 deaths due to dengue have been reported.

Barbados

As of Week 26 of 2023, 3 cases with 0 deaths were reported, for a total of 274 cases and 0 deaths to date.

Belize

In Week 31 of 2023, 32 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 31) is 4450. There have now been 0 deaths reported in 2023.

Bermuda

In Week 32 of 2023, 1 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 32) is 1. There have now been 0 deaths reported in 2023.

Bolivia

During epidemiological Week 40 of 2023, there were 270 dengue cases reported. 0 dengue-related deaths were reported in Week 40. The cumulative number of dengue cases reported to date is 140246 cases. As of epidemiological Week 40, a total of 83 deaths due to dengue have been reported.

Brazil

As of Week 32 of 2023, 5655 cases with 0 deaths were reported, for a total of 2569746 cases and 912 deaths to date.

Canada

During epidemiological Week 41 of 2023, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 41. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 41, a total of 0 deaths due to dengue have been reported.

Cayman Islands

As of epidemiological Week 35 of 2023, 57 dengue cases were newly reported, leading to a total of 57 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Chile

As of epidemiological Week 35 of 2023, 57 dengue cases were newly reported, leading to a total of 57 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Colombia

During epidemiological Week 40 of 2023, there were 2984 dengue cases reported. 12 dengue-related deaths were reported in Week 40. The cumulative number of dengue cases reported to date is 88931 cases. As of epidemiological Week 40, a total of 71 deaths due to dengue have been reported.

Costa Rica

As of Week 40 of 2023, 769 cases with 0 deaths were reported, for a total of 15495 cases and 0 deaths to date.

Cuba

As of Week 26 of 2023, 2586 cases with 1 deaths were reported, for a total of 3036 cases and 1 deaths to date.

Dominican Republic

In Week 34 of 2023, 747 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 34) is 6068. There have now been 4 deaths reported in 2023.

Ecuador

During epidemiological Week 35 of 2023, there were 561 dengue cases reported. 1 dengue-related death was reported in Week 35. The cumulative number of dengue cases reported to date is 17370 cases. In epidemiological Week 35, a total of 20 deaths due to dengue have been reported.

El Salvador

In Week 39 of 2023, 102 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 39) is 4471. There have now been 0 deaths reported in 2023.

Grenada

As of Week 41 of 2023, 8 cases with 0 deaths were reported, for a total of 597 cases and 1 deaths to date.

Guadeloupe

As of Week 40 of 2023, 645 cases with 0 deaths were reported, for a total of 7641 cases and 5 deaths to date.

Guatemala

In Week 40 of 2023, 3261 dengue cases and 1 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 40) is 37584. There have now been 53 deaths reported in 2023.

Guyana

During epidemiological Week 16 of 2023, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 16. The cumulative number of dengue cases reported to date is 92 cases. In epidemiological Week 16, a total of 0 deaths due to dengue have been reported.

Honduras

In Week 39 of 2023, 1350 dengue cases and 3 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 39) is 18532. There have now been 11 deaths reported in 2023.

Jamaica

As of epidemiological Week 38 of 2023, 1526 dengue cases were newly reported, leading to a total of 2021 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Martinique

As of epidemiological Week 40 of 2023, 700 dengue cases were newly reported, leading to a total of 8589 cases. 0 dengue-related deaths were reported this week, for a total of 6 dengue-related deaths to date.

Mexico

As of Week 39 of 2023, 9056 cases with 0 deaths were reported, for a total of 150104 cases and 48 deaths to date.

Montserrat

During epidemiological Week 32 of 2023, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 32. The cumulative number of dengue cases reported to date is 2 cases. As of epidemiological Week 32, a total of 0 deaths due to dengue have been reported.

Nicaragua

In Week 38 of 2023, 4333 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 38) is 103002. There have now been 1 deaths reported in 2023.

Panama

As of epidemiological Week 39 of 2023, 410 dengue cases were newly reported, leading to a total of 10991 cases. 0 dengue-related deaths were reported this week, for a total of 4 dengue-related deaths to date.

Paraguay

In Week 40 of 2023, 37 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 40) is 8733. There have now been 15 deaths reported in 2023.

Peru

During epidemiological Week 38 of 2023, there were 2156 dengue cases reported. 0 dengue-related deaths were reported in Week 38. The cumulative number of dengue cases reported to date is 257089 cases. As of epidemiological Week 38, a total of 424 deaths due to dengue have been reported.

Puerto Rico

During epidemiological Week 37 of 2023, there were 7 dengue cases reported. 0 dengue-related deaths were reported in Week 37. The cumulative number of dengue cases reported to date is 596 cases. As of epidemiological Week 37, a total of 0 deaths due to dengue have been reported.

Saint Barthelemy

In Week 40 of 2023, 23 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 40) is 152. There have now been 0 deaths reported in 2023.

Saint Kitts and Nevis

During epidemiological Week 8 of 2023, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 8. The cumulative number of dengue cases reported to date is 5 cases. In epidemiological Week 8, a total of 0 deaths due to dengue have been reported.

Saint Lucia

As of Week 37 of 2023, 7 cases with 0 deaths were reported, for a total of 28 cases and 0 deaths to date.

Saint Martin

During epidemiological Week 40 of 2023, there were 20 dengue cases reported. 0 dengue-related deaths were reported in Week 40. The cumulative number of dengue cases reported to date is 169 cases. As of epidemiological Week 40, a total of 0 deaths due to dengue have been reported.

Saint Vincent and the Grenadines

During epidemiological Week 32 of 2023, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 32. The cumulative number of dengue cases reported to date is 14 cases. In epidemiological Week 32, a total of 0 deaths due to dengue have been reported.

Sint Maarten

In Week 24 of 2023, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 24) is 0. There have now been 0 deaths reported in 2023.

Suriname

In Week 34 of 2023, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of Week 34) is 137. There have now been 0 deaths reported in 2023.

Trinidad and Tobago

In Week 32 of 2023, 0 cases with 0 deaths were reported, for a total of 100 cases and 0 deaths to date.

Turks and Caicos Islands

In Week 32 of 2023, 8 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of Week 32) is 8. There have now been 0 deaths reported in 2023.

United States

As of epidemiological Week 41 of 2023, 30 dengue cases were newly reported, leading to a total of 852 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Uruguay

In Week 27 of 2023, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 27) is 35. There have now been 0 deaths reported in 2023.

Venezuela

In Week 21 of 2023, 384 cases with 2 deaths were reported, for a total of 4809 cases and 8 deaths to date.

Virgin Islands UK

In Week 32 of 2023, 1 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of Week 32) is 5. There have now been 0 deaths reported in 2023.

Virgin Islands US

As of epidemiological Week 41 of 2023, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.
