

Update on the Dengue Situation in the Western Pacific Region & the Americas

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. [Western Pacific region data](#) are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People's Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by **WHO's Division of Pacific Technical Support**. Data from the Americas are drawn from the **Pan American Health Organization's** [PLISA Health Information Platform for the Americas](#). Data for Indonesia, Thailand, and Myanmar are drawn from **ASEAN Biodiaspora Virtual Center's** [weekly reports](#). Information is reported based on countries' standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

Follow us on:

Western Pacific - Northern Atmosphere

Cambodia

As of Week 42 of 2023, 1090 cases with 0 deaths were reported, for a total of 26,912 cases and 39 deaths to date.

China

As of epidemiological Week 38 of 2023, 6494 dengue cases were newly reported, leading to a total of 12,400 cases. 1 dengue-related deaths were reported this week, for a total of 1 dengue-related deaths to date.

Indonesia

In Week 40 of 2023, 2147 dengue cases and 16 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week Week 40) is 68,996. There have now been 498 deaths reported in 2023.

Laos PDR

During epidemiological Week 45 of 2023, there were 502 dengue cases reported. 0 dengue-related deaths were reported in Week 45. The cumulative number of dengue cases reported to date is 30,292 cases. As of epidemiological Week 45, a total of 19 deaths due to dengue have been reported.

Malaysia

During epidemiological Week 44 of 2023, there were 2221 dengue cases reported. 5 dengue-related deaths were reported in Week 44. The cumulative number of dengue cases reported to date is 100,936 cases. As of epidemiological Week 44, a total of 78 deaths due to dengue have been reported.

Myanmar

During epidemiological Week 28 of 2023, there were 4968 dengue cases reported. 23 dengue-related deaths were reported in Week 28. The cumulative number of dengue cases reported to date is 6685 cases. As of epidemiological Week 28, a total of 30 deaths due to dengue have been reported.

Philippines

During epidemiological Week 43 of 2023, there were 2578 dengue cases reported. 31 dengue-related deaths were reported in Week 43. The cumulative number of dengue cases reported to date is 167,355 cases. As of epidemiological Week 43, a total of 575 deaths due to dengue have been reported.

Singapore

As of epidemiological Week 45 of 2023, 157 dengue cases were newly reported, leading to a total of 8,593 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Thailand

In Week 41 of 2023, 8480 dengue cases and 18 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week Week 41) is 115,028. There have now been 119 deaths reported in 2023.

Viet Nam

As of epidemiological Week 44 of 2023, 7089 dengue cases were newly reported, leading to a total of 135,879 cases. 1 dengue-related deaths were reported this week, for a total of 35 dengue-related deaths to date.

Western Pacific – Southern Atmosphere

Australia

As of epidemiological Week 47 of 2023, 32 dengue cases were newly reported, leading to a total of 864 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Cook Islands

As of epidemiological Week 17 of 2023, 4 dengue cases were newly reported, leading to a total of 23 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

French Polynesia

There were 0 dengue cases reported in 2023. 0 dengue-related deaths were reported.

New Caledonia

As of Week 38 of 2023, 0 cases with 0 deaths were reported, for a total of 4 cases and 0 deaths to date.

Wallis and Futuna

As of Week 45 of 2023, 0 cases with 0 deaths were reported, for a total of 68 cases and 0 deaths to date.

The Americas

Antigua and Barbados

During epidemiological Week 40 of 2023, there were 23 dengue cases reported. 0 dengue-related deaths were reported in Week 40. The cumulative number of dengue cases reported to date is 45 cases. As of epidemiological Week 40, a total of 0 deaths due to dengue have been reported.

Argentina

During epidemiological Week 46 of 2023, there were 496 dengue cases reported. 0 dengue-related deaths were reported in Week 46. The cumulative number of dengue cases reported to date is 124,007 cases. As of epidemiological Week 46, a total of 65 deaths due to dengue have been reported.

Aruba

During epidemiological Week 40 of 2023, there were 11 dengue cases reported. 0 dengue-related deaths were reported in Week 40. The cumulative number of dengue cases reported to date is 21 cases. As of epidemiological Week 40, a total of 0 deaths due to dengue have been reported.

Bahamas

As of Week 45 of 2023, 8 cases with 0 deaths were reported, for a total of 231 cases and 1 deaths to date.

Barbados

In Week 46 of 2023, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week Week 46) is 1,126. There have now been 0 deaths reported in 2023.

Belize

In Week 31 of 2023, 32 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week Week 31) is 4,450. There have now been 0 deaths reported in 2023.

Bermuda

As of Week 40 of 2023, 0 cases with 0 deaths were reported, for a total of 1 case and 0 deaths to date.

Bolivia

In Week 45 of 2023, 383 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week Week 45) is 144,065. There have now been 85 deaths reported in 2023.

Brazil

During epidemiological Week 44 of 2023, there were 3050 dengue cases reported. 0 dengue-related deaths were reported in Week 44. The cumulative number of dengue cases reported to date is 2,909,404 cases. As of epidemiological Week 44, a total of 1011 deaths due to dengue have been reported.

Canada

In Week 47 of 2023, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week Week 47) is 0. There have now been 0 deaths reported in 2023.

Cayman Islands

As of epidemiological Week 40 of 2023, 15 dengue cases were newly reported, leading to a total of 15 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Chile

As of epidemiological Week 35 of 2023, 57 dengue cases were newly reported, leading to a total of 57 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Colombia

As of Week 46 of 2023, 3638 cases with 0 deaths were reported, for a total of 107,308 cases and 74 deaths to date.

Costa Rica

In Week 45 of 2023, 785 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week Week 45) is 22,561. There have now been 0 deaths reported in 2023.

Cuba

As of Week 26 of 2023, 2586 cases with 1 deaths were reported, for a total of 3036 cases and 1 deaths to date.

Dominican Republic

As of Week 44 of 2023, 1057 cases with 0 deaths were reported, for a total of 18,417 cases and 19 deaths to date.

Ecuador

As of epidemiological Week 43 of 2023, 684 dengue cases were newly reported, leading to a total of 22,749 cases. 1 dengue-related deaths were reported this week, for a total of 25 dengue-related deaths to date.

El Salvador

As of Week 41 of 2023, 0 cases with 0 deaths were reported, for a total of 4722 cases and 0 deaths to date.

Grenada

As of epidemiological Week 47 of 2023, 1 dengue cases were newly reported, leading to a total of 611 cases. 0 dengue-related deaths were reported this week, for a total of 1 dengue-related deaths to date.

Guadeloupe

As of Week 46 of 2023, 590 cases with 0 deaths were reported, for a total of 9,851 cases and 7 deaths to date.

Guatemala

In Week 44 of 2023, 2730 dengue cases and 2 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week Week 44) is 53,705. There have now been 87 deaths reported in 2023.

Guyana

During epidemiological Week 16 of 2023, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 16. The cumulative number of dengue cases reported to date is 92 cases. In epidemiological Week 16, a total of 0 deaths due to dengue have been reported.

Honduras

In Week 39 of 2023, 1350 dengue cases and 3 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week 39) is 18,532. There have now been 11 deaths reported in 2023.

Jamaica

As of epidemiological Week 42 of 2023, 542 dengue cases were newly reported, leading to a total of 2563 cases. 2 dengue-related deaths were reported this week, for a total of 2 dengue-related deaths to date.

Martinique

As of Week 46 of 2023, 580 cases with 0 deaths were reported, for a total of 10,919 cases and 6 deaths to date.

Mexico

As of Week 45 of 2023, 4711 cases with 0 deaths were reported, for a total of 235,616 cases and 132 deaths to date.

Montserrat

As of epidemiological Week 36 of 2023, 0 dengue cases were newly reported, leading to a total of 2 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Nicaragua

As of epidemiological Week 46 of 2023, 5390 dengue cases were newly reported, leading to a total of 152,675 cases. 0 dengue-related deaths were reported this week, for a total of 3 dengue-related deaths to date.

Panama

As of Week 47 of 2023, 711 cases with 3 deaths were reported, for a total of 16,774 cases and 13 deaths to date.

Paraguay

As of Week 46 of 2023, 179 cases with 0 deaths were reported, for a total of 10,361 cases and 15 deaths to date.

Peru

In Week 46 of 2023, 1928 dengue cases and 7 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week Week 46) is 271,279. There have now been 448 deaths reported in 2023.

Puerto Rico

As of Week 43 of 2023, 29 cases with 0 deaths were reported, for a total of 870 cases and 0 deaths to date.

Saint Barthelemy

As of epidemiological Week 46 of 2023, 95 dengue cases were newly reported, leading to a total of 411 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Saint Kitts and Nevis

During epidemiological Week 40 of 2023, there were 25 dengue cases reported. 0 dengue-related deaths were reported in Week 40. The cumulative number of dengue cases reported to date is 30 cases. As of epidemiological Week 40, a total of 0 deaths due to dengue have been reported.

Saint Lucia

In Week 47 of 2023, 3 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week Week 47) is 55. There have now been 0 deaths reported in 2023.

Saint Martin

During epidemiological Week 46 of 2023, there were 200 dengue cases reported. 0 dengue-related deaths were reported in Week 46. The cumulative number of dengue cases reported to date is 662 cases. As of epidemiological Week 46, a total of 0 deaths due to dengue have been reported.

Saint Vincent and the Grenadines

As of Week 36 of 2023, 1 cases with 0 deaths were reported, for a total of 15 cases and 0 deaths to date.

Sint Maarten

As of epidemiological Week 36 of 2023, 1 dengue cases were newly reported, leading to a total of 1 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Suriname

As of epidemiological Week 44 of 2023, 1 dengue cases were newly reported, leading to a total of 221 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Trinidad and Tobago

In Week 36 of 2023, 32 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week Week 36) is 132. There have now been 0 deaths reported in 2023.

Turks and Caicos Islands

In Week 40 of 2023, 10 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological week Week 40) is 18. There have now been 0 deaths reported in 2023.

United States

As of epidemiological Week 47 of 2023, 70 dengue cases were newly reported, leading to a total of 1,296 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Uruguay

During epidemiological Week 42 of 2023, there were 5 dengue cases reported. 0 dengue-related deaths were reported in Week 42. The cumulative number of dengue cases reported to date is 40 cases. As of epidemiological Week 42, a total of 0 deaths due to dengue have been reported.

Venezuela

In Week 21 of 2023, 384 cases with 2 deaths were reported, for a total of 4,809 cases and 8 deaths to date.

Virgin Islands UK

As of Week 40 of 2023, 0 cases with 0 deaths were reported, for a total of 5 cases and 0 deaths to date.

Virgin Islands US

As of Week 45 of 2023, 0 cases with 0 deaths were reported, for a total of 68 cases and 0 deaths to date.
