

### Update on the Dengue Situation in the Western Pacific Region & the Americas

---

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. [Western Pacific region data](#) are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People's Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by **WHO's Division of Pacific Technical Support**. Data from the Americas are drawn from the **Pan American Health Organization's** [PLISA Health Information Platform for the Americas](#). Data for Indonesia, Thailand, and Myanmar are drawn from **ASEAN Biodiaspora Virtual Center's** [weekly reports](#). Information is reported based on countries' standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

### Western Pacific - Northern Atmosphere

#### Cambodia

In Week 2 of 2024, 1078 dengue cases and 3 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological Week 2) is 1078. There have now been 3 deaths reported in 2024.

#### China

During epidemiological Week 52 of 2023, there were 154 dengue cases reported. 0 dengue-related deaths were reported in Week 52. The cumulative number of dengue cases reported to date is 19,627 cases. As of epidemiological Week 52, a total of 1 death due to dengue has been reported.

#### Indonesia

In Week 3 of 2024, 99,253 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological Week 3) is 99,253. There have now been 764 deaths reported in 2024.

#### Laos PDR

During epidemiological Week 1 of 2024, there were 65 dengue cases reported. 0 dengue-related deaths were reported in Week 1. The cumulative number of dengue cases reported to date is 65 cases. As of epidemiological Week 1, a total of 0 deaths due to dengue have been reported.

#### Malaysia

As of Week 1 of 2024, 3181 cases with 0 deaths were reported, for a total of 3181 cases and 0 deaths to date.

**Myanmar**

In Week 28 of 2023, 4968 dengue cases and 23 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 28) is 6685. There have now been 30 deaths reported in 2023.

**Philippines**

As of Week 48 of 2023, 2607 cases with 82 deaths were reported, for a total of 195,603 cases and 657 deaths to date.

**Singapore**

As of epidemiological Week 52 of 2023, 275 dengue cases were newly reported, leading to a total of 9938 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Thailand**

During epidemiological Week 3 of 2024, there were 12,342 dengue cases reported. 184 dengue-related deaths were reported in Week 3. The cumulative number of dengue cases reported to date is 170,927 cases. As of epidemiological Week 3, a total of 184 deaths due to dengue have been reported.

**Viet Nam**

As of epidemiological Week 50 of 2023, 3337 dengue cases were newly reported, leading to a total of 166,619 cases. 0 dengue-related deaths were reported this week, for a total of 42 dengue-related deaths to date.

## Western Pacific – Southern Atmosphere

### Australia

During epidemiological Week 49 of 2023, there were 48 dengue cases reported. 0 dengue-related deaths were reported in Week 49. The cumulative number of dengue cases reported to date is 1023 cases. As of epidemiological Week 49, a total of 0 deaths due to dengue have been reported.

### Cook Islands

During epidemiological Week 17 of 2022, there were 4 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 23 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

### French Polynesia

In Week 8 of 2022, 0 dengue cases and 11 deaths were reported. The cumulative number of cases reported in 2022 (as of epidemiological Week 8) is 0. There have now been 0 deaths reported in 2022.

### New Caledonia

During epidemiological Week 38 of 2023, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 38. The cumulative number of dengue cases reported to date is 4 cases. As of epidemiological Week 38, a total of 0 deaths due to dengue have been reported.

### Wallis and Futuna

In Week 45 of 2021, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2021 (as of epidemiological Week 45) is 68.0. There have now been 0 deaths reported in 2021.

## The Americas

### Antigua and Barbados

In Week 52 of 2023, 209 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 52) is 254. There have now been 0 deaths reported in 2023.

### Argentina

In Week 52 of 2023, 3857 dengue cases and 7 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 52) is 130,287. There have now been 75 deaths reported in 2023.

### Aruba

During epidemiological Week 48 of 2023, there was 1 dengue case reported. 0 dengue-related deaths were reported in Week 48. The cumulative number of dengue cases reported to date is 22 cases. As of epidemiological Week 48, a total of 0 deaths due to dengue have been reported.

### Bahamas

As of epidemiological Week 50 of 2023, 5 dengue cases were newly reported, leading to a total of 243 cases. 0 dengue-related deaths were reported this week, for a total of 1 dengue-related death to date.

**Barbados**

During epidemiological Week 46 of 2023, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 46. The cumulative number of dengue cases reported to date is 1126 cases. As of epidemiological Week 46, a total of 0 deaths due to dengue have been reported.

**Belize**

During epidemiological Week 52 of 2023, there were 114 dengue cases reported. 0 dengue-related deaths were reported in Week 52. The cumulative number of dengue cases reported to date is 1688 cases. As of epidemiological Week 52, a total of 0 deaths due to dengue have been reported.

**Bermuda**

In Week 48 of 2023, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 48) is 1. There have now been 0 deaths reported in 2023.

**Bolivia**

As of epidemiological Week 4 of 2024, 1728 dengue cases were newly reported, leading to a total of 5326 cases. 1 dengue-related death was reported this week, for a total of 6 dengue-related deaths to date.

**Brazil**

As of epidemiological Week 4 of 2024, 34,665 dengue cases were newly reported, leading to a total of 268,253 cases. 0 dengue-related deaths were reported this week, for a total of 15 dengue-related deaths to date.

**Canada**

As of Week 4 of 2024, 0 cases with 0 deaths were reported, for a total of 0 cases and 0 deaths to date.

**Cayman Islands**

As of epidemiological Week 52 of 2023, 27 dengue cases were newly reported, leading to a total of 42 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Chile**

In Week 52 of 2023, -57 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 52) is 0. There have now been 0 deaths reported in 2023.

**Colombia**

As of epidemiological Week 4 of 2024, 5957 dengue cases were newly reported, leading to a total of 21,497 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Costa Rica**

In Week 52 of 2023, -615 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 52) is 30,649. There have now been 0 deaths reported in 2023.

**Cuba**

As of epidemiological Week 26 of 2022, 2586 dengue cases were newly reported, leading to a total of 3036 cases. 1 dengue-related death was reported this week, for a total of 1 dengue-related deaths to date.

**Dominican Republic**

As of Week 51 of 2023, -2611 cases with -3 deaths were reported, for a total of 25,467 cases and 23 deaths to date.

**Ecuador**

During epidemiological Week 50 of 2023, there were 413 dengue cases reported. 0 dengue-related deaths were reported in Week 50. The cumulative number of dengue cases reported to date is 26,847 cases. As of epidemiological Week 50, a total of 32 deaths due to dengue have been reported.

**El Salvador**

In Week 50 of 2023, 131 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 50) is 5788. There have now been 0 deaths reported in 2023.

**Grenada**

In Week 4 of 2024, 3 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological Week 4) is 37. There have now been 0 deaths reported in 2024.

**Guadeloupe**

As of epidemiological Week 3 of 2024, 210 dengue cases were newly reported, leading to a total of 860 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Guatemala**

In Week 52 of 2023, 2385 dengue cases and 22 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 52) is 72,358. There have now been 119 deaths reported in 2023.

**Guyana**

During epidemiological Week 16 of 2023, there were 87 dengue cases reported. 0 dengue-related deaths were reported in Week 16. The cumulative number of dengue cases reported to date is 92 cases. As of epidemiological Week 16, a total of 0 deaths due to dengue have been reported.

**Honduras**

In Week 3 of 2024, 618 dengue cases and 2 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological Week 3) is 1417. There have now been 2 deaths reported in 2024.

**Jamaica**

During epidemiological Week 47 of 2023, there were 3191 dengue cases reported. 3 dengue-related deaths were reported in Week 47. The cumulative number of dengue cases reported to date is 5754 cases. As of epidemiological Week 47, a total of 5 deaths due to dengue have been reported.

**Martinique**

During epidemiological Week 3 of 2024, there were 280 dengue cases reported. 0 dengue-related deaths were reported in Week 3. The cumulative number of dengue cases reported to date is 825 cases. As of epidemiological Week 3, a total of 0 deaths due to dengue have been reported.

**Mexico**

As of epidemiological Week 4 of 2024, 2172 dengue cases were newly reported, leading to a total of 14,896 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Montserrat**

As of Week 48 of 2023, 2 cases with 0 deaths were reported, for a total of 6 cases and 0 deaths to date.

**Nicaragua**

As of Week 3 of 2024, 2974 cases with 0 deaths were reported, for a total of 9928 cases and 0 deaths to date.

**Panama**

In Week 4 of 2024, 408 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological Week 4) is 2100. There have now been 2 deaths reported in 2024.

**Paraguay**

As of Week 3 of 2024, 14,470 cases with 0 deaths were reported, for a total of 45,026 cases and 12 deaths to date.

**Peru**

During epidemiological Week 4 of 2024, there were 2522 dengue cases reported. 1 dengue-related death was reported in Week 4. The cumulative number of dengue cases reported to date is 9353 cases. As of epidemiological Week 4, a total of 7 deaths due to dengue have been reported.

**Puerto Rico**

As of Week 52 of 2023, 211 cases with 0 deaths were reported, for a total of 1242 cases and 0 deaths to date.

**Saint Barthelemy**

During epidemiological Week 3 of 2024, there were 19 dengue cases reported. 0 dengue-related deaths were reported in Week 3. The cumulative number of dengue cases reported to date is 51 cases. As of epidemiological Week 3, a total of 0 deaths due to dengue have been reported.

**Saint Kitts and Nevis**

In Week 4 of 2024, 6 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological Week 4) is 105. There have now been 0 deaths reported in 2024.

**Saint Lucia**

During epidemiological Week 4 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

**Saint Martin**

As of Week 3 of 2024, 64 cases with 0 deaths were reported, for a total of 156 cases and 0 deaths to date.

**Saint Vincent and the Grenadines**

In Week 44 of 2023, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 44) is 15. There have now been 0 deaths reported in 2023.

**Sint Maarten**

As of Week 36 of 2023, 1 case with 0 deaths were reported, for a total of 1 case and 0 deaths to date.

**Suriname**

In Week 46 of 2023, 18 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 46) is 239. There have now been 0 deaths reported in 2023.

**Trinidad and Tobago**

As of epidemiological Week 52 of 2023, -6 dengue cases were newly reported, leading to a total of 126 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Turks and Caicos Islands**

As of Week 44 of 2023, 75 cases with 0 deaths were reported, for a total of 93 cases and 0 deaths to date.

**United States**

As of Week 4 of 2024, 3 cases with 0 deaths were reported, for a total of 32 cases and 0 deaths to date.

**Uruguay**

In Week 49 of 2023, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 49) is 44. There have now been 0 deaths reported in 2023.

**Venezuela**

As of epidemiological Week 21 of 2023, 384 dengue cases were newly reported, leading to a total of 4809 cases. 2 dengue-related deaths were reported this week, for a total of 8 dengue-related deaths to date.

**Virgin Islands UK**

As of epidemiological Week 52 of 2023, 2 dengue cases were newly reported, leading to a total of 7 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Virgin Islands US**

During epidemiological Week 4 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.
