
Update on the Dengue Situation in the Western Pacific Region & the Americas

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. [Western Pacific region data](#) are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People's Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by **WHO's Division of Pacific Technical Support**. Data from the Americas are drawn from the **Pan American Health Organization's** [PLISA Health Information Platform for the Americas](#). Data for Indonesia, Thailand, and Myanmar are drawn from **ASEAN Biodiaspora Virtual Center's** [weekly reports](#). Information is reported based on countries' standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

Follow us on:

Western Pacific - Northern Atmosphere

Cambodia

In Week 6 of 2024, 662 dengue cases and 3 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological Week 6) is 2634. There have now been 8 deaths reported in 2024.

China

In Week 52 of 2023, 154 cases with 0 deaths were reported, for a total of 19,627 cases and 1 death to date.

Indonesia

In Week 8 of 2024.0, 3,538 dengue cases and 147 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological Week 8) is 130,412. There have now been 1,018 deaths reported in 2024.

Laos PDR

In epidemiological Week 7 of 2024, 129 dengue cases were newly reported, leading to a total of 966 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Malaysia

In epidemiological Week 7 of 2024, 3,483 dengue cases were newly reported, leading to a total of 25,541 cases. 4 dengue-related deaths were reported this week, for a total of 14 dengue-related deaths to date.

Myanmar

In epidemiological Week 28 of 2023, 4,968 dengue cases were newly reported, leading to a total of 6,685 cases. 23 dengue-related deaths were reported this week, for a total of 30 dengue-related deaths to date.

Philippines

In Week 48 of 2023, 2,607 cases with 82 deaths were reported, for a total of 195,603 cases and 657 deaths to date.

Singapore

In epidemiological Week 7 of 2024, 427 dengue cases were newly reported, leading to a total of 2,962 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Thailand

In epidemiological Week 7 of 2024, 1,636 dengue cases were newly reported, leading to a total of 174,730 cases. 2 dengue-related deaths were reported this week, for a total of 192 dengue-related deaths to date.

Viet Nam

In epidemiological Week 2 of 2024, 3,758 dengue cases were newly reported, leading to a total of 3,758 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Western Pacific – Southern Atmosphere

Australia

In epidemiological Week 3 of 2024, 59 dengue cases were newly reported, leading to a total of 1,117 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Cook Islands

During epidemiological Week 17 of 2022, there were 4 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 23 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

French Polynesia

In Week 8 of 2022, 0 dengue cases and 11 deaths were reported. The cumulative number of cases reported in 2022 (as of epidemiological Week 8) is 0. There have now been 0 deaths reported in 2022.

New Caledonia

During epidemiological Week 38 of 2023, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 38. The cumulative number of dengue cases reported to date is 4 cases. As of epidemiological Week 38, a total of 0 deaths due to dengue have been reported.

Wallis and Futuna

In Week 45 of 2021, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2021 (as of epidemiological Week 45) is 68.0. There have now been 0 deaths reported in 2021.

The Americas

Antigua and Barbados

In Week 4 of 2024, 41 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (In epidemiological Week 4) is 41. There have now been 0 deaths reported in 2024.

Argentina

In epidemiological Week 8 of 2024, 17,325 dengue cases were newly reported, leading to a total of 57,461 cases. 9 dengue-related deaths were reported this week, for a total of 37 dengue-related deaths to date.

Aruba

In epidemiological Week 4 of 2024, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Bahamas

In Week 6 of 2024, 0 cases with 0 deaths were reported, for a total of 0 cases and 0 deaths to date.

Barbados

During epidemiological Week 46 of 2023, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 46. The cumulative number of dengue cases reported to date is 1126 cases. As of epidemiological Week 46, a total of 0 deaths due to dengue have been reported.

Belize

During epidemiological Week 52 of 2023, there were 114 dengue cases reported. 0 dengue-related deaths were reported in Week 52. The cumulative number of dengue cases reported to date is 1688 cases. As of epidemiological Week 52, a total of 0 deaths due to dengue have been reported.

Bermuda

In epidemiological Week 4 of 2024, no dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Bolivia

During epidemiological Week 8 of 2024, there were 1,217 dengue cases reported. 0 dengue-related deaths were reported in Week 8. The cumulative number of dengue cases reported to date is 11,221 cases. In epidemiological Week 8, a total of 9 deaths due to dengue have been reported.

Brazil

In Week 9 of 2024, 80,593 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (In epidemiological Week 9) is 1,563,504. There have now been 278 deaths reported in 2024.

Canada

As of Week 9 of 2024, 0 cases with 0 deaths were reported, for a total of 0 cases and 0 deaths to date.

Cayman Islands

As of epidemiological Week 52 of 2023, 27 dengue cases were newly reported, leading to a total of 42 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Chile

In Week 52 of 2023, -57 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 52) is 0. There have now been 0 deaths reported in 2023.

Colombia

In Week 9 of 2024, 7,518 cases with 5 deaths were reported, for a total of 55,340 cases and 10 deaths to date.

Costa Rica

In Week 52 of 2023, -615 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 52) is 30,649. There have now been 0 deaths reported in 2023.

Cuba

As of epidemiological Week 26 of 2022, 2586 dengue cases were newly reported, leading to a total of 3036 cases. 1 dengue-related death was reported this week, for a total of 1 dengue-related deaths that year.

Dominican Republic

As of Week 51 of 2023, -2611 cases with -3 deaths were reported, for a total of 25,467 cases and 23 deaths to date.

Ecuador

In Week 9 of 2024, 1,673 dengue cases and 4 deaths were reported. The cumulative number of cases reported in 2024 (In epidemiological Week 9) is 9,442. There have now been 10 deaths reported in 2024.

El Salvador

In epidemiological Week 9 of 2024, 127 dengue cases were newly reported, leading to a total of 972 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Grenada

In Week 9 of 2024, 10 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (In epidemiological Week 9) is 84. There have now been 0 deaths reported in 2024.

Guadeloupe

During epidemiological Week 8 of 2024, there were 85 dengue cases reported. 0 dengue-related deaths were reported in Week 8. The cumulative number of dengue cases reported to date is 1920 cases. In epidemiological Week 8, a total of 0 deaths due to dengue have been reported.

Guatemala

In Week 8 of 2024, 469 cases with 0 deaths were reported, for a total of 7,651 cases and 3 deaths to date.

Guyana

In Week 16 of 2023, 87 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (In epidemiological Week 16) is 92. There have now been 0 deaths reported in 2023.

Honduras

In Week 7 of 2024, 879 dengue cases and 1 death were reported. The cumulative number of cases reported in 2024 (In epidemiological Week 7) is 5,239. There have now been 7 deaths reported in 2024.

Jamaica

In Week 7 of 2024, 126 cases with 0 deaths were reported, for a total of 679 cases and 0 deaths to date.

Martinique

In epidemiological Week 8 of 2024, 600 dengue cases were newly reported, leading to a total of 3,025 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Mexico

In Week 9 of 2024, 1,862 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (In epidemiological Week 9) is 33,253. There have now been 0 deaths reported in 2024.

Montserrat

In Week 4 of 2024, 1 case with 0 deaths were reported, for a total of 1 case and 0 deaths to date.

Nicaragua

In epidemiological Week 5 of 2024, 7,411 dengue cases were newly reported, leading to a total of 17,339 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Panama

During epidemiological Week 8 of 2024, there were 231 dengue cases reported. 0 dengue-related deaths were reported in Week 8. The cumulative number of dengue cases reported to date is 3,723 cases. In epidemiological Week 8, a total of 6 deaths due to dengue have been reported.

Paraguay

During epidemiological Week 9 of 2024, there were 10,768 dengue cases reported. 8 dengue-related deaths were reported in Week 9. The cumulative number of dengue cases reported to date is 160,964 cases. In epidemiological Week 9, a total of 43 deaths due to dengue have been reported.

Peru

In Week 9 of 2024, 9,910 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (In epidemiological Week 9) is 46,522. There have now been 41 deaths reported in 2024.

Puerto Rico

In Week 8 of 2024, 15 cases with 0 deaths were reported, for a total of 363 cases and 0 deaths to date.

Saint Barthelemy

In epidemiological Week 8 of 2024, 3 dengue cases were newly reported, leading to a total of 99 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Saint Kitts and Nevis

In Week 9 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (In epidemiological Week 9) is 132. There have now been 0 deaths reported in 2024.

Saint Lucia

In epidemiological Week 9 of 2024, 0 dengue cases were newly reported, leading to a total of 4 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Saint Martin

In epidemiological Week 8 of 2024, 20 dengue cases were newly reported, leading to a total of 386 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Saint Vincent and the Grenadines

In Week 44 of 2023, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 44) is 15. There were 0 deaths reported in 2023.

Sint Maarten

During epidemiological Week 4 of 2024, there were 44 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 44 cases. In epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

Suriname

In Week 6 of 2024, 3 cases with 0 deaths were reported, for a total of 30 cases and 2 deaths to date.

Trinidad and Tobago

In epidemiological Week 4 of 2024, 46 dengue cases were newly reported, leading to a total of 46 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Turks and Caicos Islands

In Week 4 of 2024, 27 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (In epidemiological Week 4) is 27. There have now been 0 deaths reported in 2024.

United States

During epidemiological Week 9 of 2024, there were 47 dengue cases reported. 0 dengue-related deaths were reported in Week 9. The cumulative number of dengue cases reported to date is 193 cases. In epidemiological Week 9, a total of 0 deaths due to dengue have been reported.

Uruguay

In Week 49 of 2023, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of epidemiological Week 49) is 44. There have now been 0 deaths reported in 2023.

Venezuela

In Week 21 of 2023, 384 dengue cases and 2 deaths were reported. The cumulative number of cases reported in 2023 (In epidemiological Week 21) is 4809. There have now been 8 deaths reported in 2023.

Virgin Islands UK

As of epidemiological Week 52 of 2023, 2 dengue cases were newly reported, leading to a total of 7 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Virgin Islands US

In Week 9 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (In epidemiological Week 9) is 0. There have now been 0 deaths reported in 2024.
