

## Update on the Dengue Situation in the Western Pacific Region & the Americas

---

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. [Western Pacific region data](#) are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People's Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by **WHO's Division of Pacific Technical Support**. Data from the Americas are drawn from the **Pan American Health Organization's** [PLISA Health Information Platform for the Americas](#). Data for Indonesia, Thailand, and Myanmar are drawn from **ASEAN Biodiaspora Virtual Center's** [weekly reports](#). Information is reported based on countries' standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

Follow us on:

---

### Western Pacific - Northern Atmosphere

#### Cambodia

In Week 13 of 2024, 507 dengue cases and 3 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 13) is 4620. There have now been 16 deaths reported in 2024.

#### China

As of Week 8 of 2024, 42 cases with 0 deaths were reported, for a total of 42 cases and 0 deaths to date.

#### Indonesia

As of Week 10 of 2024, 5459 cases with 59 deaths were reported, for a total of 27417 cases and 250 deaths to date.

#### Laos PDR

During Epidemiological Week 11 of 2024, there were 170 dengue cases reported. 0 dengue-related deaths were reported in Week 11. The cumulative number of dengue cases reported to date is 1499 cases. As of Epidemiological Week 11, a total of 0 deaths due to dengue have been reported.

#### Malaysia

As of Epidemiological Week 13 of 2024, 2579 dengue cases were newly reported, leading to a total of 44144 cases. 4 dengue-related deaths were reported this week, for a total of 31 dengue-related deaths to date.

**Myanmar**

During Epidemiological Week 28 of 2023, there were 4968 dengue cases reported. 23 dengue-related deaths were reported in Week 28. The cumulative number of dengue cases reported to date is 6685 cases. As of Epidemiological Week 28, a total of 30 deaths due to dengue have been reported.

**Philippines**

As of Week 48 of 2023, 2607 cases with 82 deaths were reported, for a total of 195603 cases and 657 deaths to date.

**Singapore**

As of Week 13 of 2024, 349 cases with 0 deaths were reported, for a total of 5166 cases and 0 deaths to date.

**Thailand**

In Week 13 of 2024, 897 dengue cases and 1 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 13) is 23441. There have now been 22 deaths reported in 2024.

**Viet Nam**

As of Week 13 of 2024, 753 cases with 0 deaths were reported, for a total of 14542 cases and 0 deaths to date.

## Western Pacific – Southern Atmosphere

### **Australia**

As of Epidemiological Week 13 of 2024, 43 dengue cases were newly reported, leading to a total of 102 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

### **Cook Islands**

As of Epidemiological Week 17 of 2022, 4 dengue cases were newly reported, leading to a total of 23 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

### **French Polynesia**

During Epidemiological Week 8 of 2022, there were 0 dengue cases reported. 11 dengue-related deaths were reported in Week 8. The cumulative number of dengue cases reported to date is 0 cases. As of Epidemiological Week 8, a total of 0 deaths due to dengue have been reported.

### **New Caledonia**

During Epidemiological Week 9 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 9. The cumulative number of dengue cases reported to date is 6 cases. As of Epidemiological Week 9, a total of 0 deaths due to dengue have been reported.

### **Wallis and Futuna**

During Epidemiological Week 45 of 2021, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 45. The cumulative number of dengue cases reported to date is 68 cases. As of Epidemiological Week 45, a total of 0 deaths due to dengue have been reported.

## The Americas

### Antigua and Barbados

As of Week 12 of 2024, 0 cases with 0 deaths were reported, for a total of 41 cases and 0 deaths to date.

### Argentina

During Epidemiological Week 13 of 2024, there were 52466 dengue cases reported. 32 dengue-related deaths were reported in Week 13. The cumulative number of dengue cases reported to date is 215885 cases. As of Epidemiological Week 13, a total of 151 deaths due to dengue have been reported.

### Aruba

In Week 12 of 2024, 2 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 12) is 16. There have now been 0 deaths reported in 2024.

### Bahamas

In Week 6 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 6) is 0. There have now been 0 deaths reported in 2024.

### Barbados

In Week 10 of 2024, 940 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 10) is 940. There have now been 0 deaths reported in 2024.

### Belize

As of Week 11 of 2024, 20 cases with 0 deaths were reported, for a total of 386 cases and 0 deaths to date.

### Bermuda

During Epidemiological Week 4 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 0 cases. As of Epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

### Bolivia

As of Epidemiological Week 12 of 2024, 2115 dengue cases were newly reported, leading to a total of 17580 cases. 0 dengue-related deaths were reported this week, for a total of 9 dengue-related deaths to date.

### Brazil

During Epidemiological Week 14 of 2024, there were 82670 dengue cases reported. 4 dengue-related deaths were reported in Week 14. The cumulative number of dengue cases reported to date is 3886721 cases. As of Epidemiological Week 14, a total of 1116 deaths due to dengue have been reported.

### Canada

As of Week 14 of 2024, 0 cases with 0 deaths were reported, for a total of 0 cases and 0 deaths to date.

**Cayman Islands**

In Week 9 of 2024, 3 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 9) is 3. There have now been 0 deaths reported in 2024.

**Chile**

As of Epidemiological Week 14 of 2024, 19 dengue cases were newly reported, leading to a total of 44 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Colombia**

As of Epidemiological Week 14 of 2024, 11280 dengue cases were newly reported, leading to a total of 94558 cases. 3 dengue-related deaths were reported this week, for a total of 28 dengue-related deaths to date.

**Costa Rica**

As of Epidemiological Week 13 of 2024, 148 dengue cases were newly reported, leading to a total of 6939 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Cuba**

As of Epidemiological Week 26 of 2022, 2586 dengue cases were newly reported, leading to a total of 3036 cases. 1 dengue-related deaths were reported this week, for a total of 1 dengue-related deaths to date.

**Dominican Republic**

In Week 13 of 2024, 217 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 13) is 6964. There have now been 23 deaths reported in 2024.

**Ecuador**

In Week 14 of 2024, 2108 dengue cases and 5 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 14) is 19151. There have now been 23 deaths reported in 2024,

**El Salvador**

As of Week 13 of 2024, 116 cases with 0 deaths were reported, for a total of 1451 cases and 0 deaths to date.

**Grenada**

In Week 14 of 2024, 5 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 14) is 113. There have now been 0 deaths reported in 2024,

**Guadeloupe**

During Epidemiological Week 14 of 2024, there were 200 dengue cases reported. 0 dengue-related deaths were reported in Week 14. The cumulative number of dengue cases reported to date is 3160 cases. As of Epidemiological Week 14, a total of 0 deaths due to dengue have been reported.

**Guatemala**

In Week 14 of 2024, 531 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 14) is 12570. There have now been 9 deaths reported in 2024,

**Guyana**

In Week 16 of 2023, 87 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2023 (as of Epidemiological Week 16) is 92. There have now been 0 deaths reported in 2023,

**Honduras**

As of Week 11 of 2024, 965 cases with 0 deaths were reported, for a total of 8821 cases and 7 deaths to date.

**Jamaica**

As of Week 10 of 2024, 136 cases with 0 deaths were reported, for a total of 815 cases and 0 deaths to date.

**Martinique**

In Week 14 of 2024, 150 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 14) is 4705. There have now been 0 deaths reported in 2024,

**Mexico**

As of Week 14 of 2024, 1557 cases with 0 deaths were reported, for a total of 49244 cases and 14 deaths to date.

**Montserrat**

During Epidemiological Week 11 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 11. The cumulative number of dengue cases reported to date is 1 cases. As of Epidemiological Week 11, a total of 0 deaths due to dengue have been reported.

**Nicaragua**

As of Epidemiological Week 5 of 2024, 7411 dengue cases were newly reported, leading to a total of 17339 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Panama**

During Epidemiological Week 14 of 2024, there were 183 dengue cases reported. 1 dengue-related deaths were reported in Week 14. The cumulative number of dengue cases reported to date is 4989 cases. As of Epidemiological Week 14, a total of 9 deaths due to dengue have been reported.

**Paraguay**

As of Epidemiological Week 13 of 2024, 10649 dengue cases were newly reported, leading to a total of 212939 cases. 0 dengue-related deaths were reported this week, for a total of 64 dengue-related deaths to date.

**Peru**

As of Week 13 of 2024, 11525 cases with 14 deaths were reported, for a total of 112659 cases and 99 deaths to date.

**Puerto Rico**

As of Week 13 of 2024, 12 cases with 0 deaths were reported, for a total of 656 cases and 0 deaths to date.

**Saint Barthelemy**

As of Week 14 of 2024, 2 cases with 0 deaths were reported, for a total of 116 cases and 0 deaths to date.

**Saint Kitts and Nevis**

During Epidemiological Week 14 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 14. The cumulative number of dengue cases reported to date is 149 cases. As of Epidemiological Week 14, a total of 0 deaths due to dengue have been reported.

**Saint Lucia**

During Epidemiological Week 14 of 2024, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 14. The cumulative number of dengue cases reported to date is 4 cases. As of Epidemiological Week 14, a total of 0 deaths due to dengue have been reported.

**Saint Martin**

As of Epidemiological Week 14 of 2024, 10 dengue cases were newly reported, leading to a total of 449 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Saint Vincent and the Grenadines**

As of Epidemiological Week 12 of 2024, 2 dengue cases were newly reported, leading to a total of 2 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Sint Maarten**

During Epidemiological Week 12 of 2024, there were 12 dengue cases reported. 0 dengue-related deaths were reported in Week 12. The cumulative number of dengue cases reported to date is 115 cases. As of Epidemiological Week 12, a total of 0 deaths due to dengue have been reported.

**Suriname**

As of Week 14 of 2024, 3 cases with 0 deaths were reported, for a total of 85 cases and 3 deaths to date.

**Trinidad and Tobago**

As of Week 5 of 2024, 41 cases with 0 deaths were reported, for a total of 87 cases and 0 deaths to date.

**Turks and Caicos Islands**

During Epidemiological Week 12 of 2024, there were 47 dengue cases reported. 0 dengue-related deaths were reported in Week 12. The cumulative number of dengue cases reported to date is 74 cases. As of Epidemiological Week 12, a total of 0 deaths due to dengue have been reported.

**United States**

In Week 14 of 2024, 62 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 14) is 371. There have now been 0 deaths reported in 2024,

**Uruguay**

During Epidemiological Week 14 of 2024, there were 62 dengue cases reported. 0 dengue-related deaths were reported in Week 14. The cumulative number of dengue cases reported to date is 175 cases. As of Epidemiological Week 14, a total of 1 deaths due to dengue have been reported.

**Venezuela**

During Epidemiological Week 21 of 2023, there were 384 dengue cases reported. 2 dengue-related deaths were reported in Week 21. The cumulative number of dengue cases reported to date is 4809 cases. As of Epidemiological Week 21, a total of 8 deaths due to dengue have been reported.

**Virgin Islands UK**

As of Epidemiological Week 52 of 2023, 2 dengue cases were newly reported, leading to a total of 7 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

**Virgin Islands US**

In Week 14 of 2024, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of Epidemiological Week 14) is 0. There have now been 0 deaths reported in 2024.
