

# **Dengue Dashboard Situation Update - Week 12 2025**

9 April 2025

# Update on the Dengue Situation in the Western Pacific Region & the Americas

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. Western Pacific region data are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People's Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by WHO's Division of Pacific Technical Support. Data from the Americas are drawn from the Pan American Health Organization's PLISA Health Information Platform for the Americas. Data for Indonesia, Thailand, and Myanmar are drawn from ASEAN Biodiaspora Virtual Center's weekly reports. Information is reported based on countries' standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

Follow us on:

# **Western Pacific - Northern Atmosphere**

# Cambodia

As of epidemiological Week 52 of 2024, 1895 dengue cases were newly reported, leading to a total of 18983 cases. 3 dengue-related deaths were reported this week, for a total of 46 dengue-related deaths to date.

# China

As of epidemiological Week 9 of 2025, 3 dengue cases were newly reported, leading to a total of 51 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

## Indonesia – no updates

As of epidemiological Week 46 of 2024, 2724 dengue cases were newly reported, leading to a total of 218356 cases. 9 dengue-related deaths were reported this week, for a total of 1259 dengue-related deaths to date.

#### **Laos PDR**

As of Week 12 of 2025, 36 cases with 0 deaths were reported, for a total of 528 cases and 0 deaths to date.

#### Malaysia – no updates

As of epidemiological Week 52 of 2024, 1341 dengue cases were newly reported, leading to a total of 122423 cases. 1 dengue-related death was reported this week, for a total of 117 dengue-related deaths to date.

# Myanmar - no updates

During epidemiological Week 50 of 2024, there were 75 dengue cases reported. 0 dengue-related deaths were reported in Week 50. The cumulative number of dengue cases reported to date is 6368 cases. As of epidemiological Week 50, a total of 15 deaths due to dengue have been reported.

# Philippines – no updates

During epidemiological Week 48 of 2023, there were 2607 dengue cases reported. 82 dengue-related deaths were reported in Week 48. The cumulative number of dengue cases reported to date is 195603 cases. As of epidemiological Week 48, a total of 657 deaths due to dengue have been reported.

# **Singapore**

In Week 12 of 2025, 102 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 12) is 1126. There have now been 0 deaths reported in 2025.

# Thailand - no updates

In Week 52 of 2024, 1204 dengue cases and 3 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological Week 52) is 107586. There have now been 88 deaths reported in 2024.

## **Viet Nam**

As of epidemiological Week 13 of 2025, 1050 dengue cases were newly reported, leading to a total of 17126 cases. 0 dengue-related deaths were reported this week, for a total of 2 dengue-related deaths to date.

# Western Pacific - Southern Atmosphere

## Australia

As of epidemiological Week 12 of 2025, 145 dengue cases were newly reported, leading to a total of 547 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

#### Cook Islands – no updates

As of Week 17 of 2022, 4 cases with 0 deaths were reported, for a total of 23 cases and 0 deaths to date.

# French Polynesia – no updates

During epidemiological Week 8 of 2022, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 8. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 8, a total of 0 deaths due to dengue have been reported.

#### **New Caledonia**

In Week 10 of 2025, 4 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 10) is 6. There have now been 0 deaths reported in 2025.

# Wallis and Futuna – no updates

As of Week 45 of 2021, 0 cases with 0 deaths were reported, for a total of 68 cases and 0 deaths to date.

# The Americas

#### **Antigua and Barbardos**

During epidemiological Week 4 of 2025, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

# **Argentina**

As of Week 11 of 2025, 721 cases with 0 deaths were reported, for a total of 3066 cases and 0 deaths to date.

#### Aruba

During epidemiological Week 4 of 2025, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

#### **Bahamas**

In Week 8 of 2024, 1 dengue case and 0 deaths were reported. The cumulative number of cases reported in 2024 (as of epidemiological week 8) is 1. There have now been 0 deaths reported in 2024.

#### **Barbados**

In Week 10 of 2025, 4 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 10) is 48. There have now been 0 deaths reported in 2025.

#### Belize

During epidemiological Week 7 of 2025, there were 13 dengue cases reported. 0 dengue-related deaths were reported in Week 7. The cumulative number of dengue cases reported to date is 44 cases. As of epidemiological Week 7, a total of 0 deaths due to dengue have been reported.

#### Bermuda

In Week 8 of 2025, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 8) is 0. There have now been 0 deaths reported in 2025.

# Bolivia

As of Week 13 of 2025, 1280 cases with 0 deaths were reported, for a total of 10532 cases and 0 deaths to date.

#### Brazil

In Week 13 of 2025, 40900 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 13) is 1401943. There have now been 451 deaths reported in 2025.

#### Canada

As of epidemiological Week 12 of 2025, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

### Cayman Islands

During epidemiological Week 4 of 2025, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 4. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 4, a total of 0 deaths due to dengue have been reported.

#### Chile

As of Week 9 of 2025, 0 cases with 0 deaths were reported, for a total of 0 cases and 0 deaths to date.

#### Colombia

As of epidemiological Week 12 of 2025, 2627 dengue cases were newly reported, leading to a total of 47559 cases. 3 dengue-related deaths were reported this week, for a total of 17 dengue-related deaths to date.

#### Costa Rica

As of epidemiological Week 12 of 2025, 145 dengue cases were newly reported, leading to a total of 1802 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

# Cuba – no updates

As of epidemiological Week 31 of 2024, 985 dengue cases were newly reported, leading to a total of 985 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

# **Dominican Republic**

During epidemiological Week 11 of 2025, there were 66 dengue cases reported. 0 dengue-related deaths were reported in Week 11. The cumulative number of dengue cases reported to date is 437 cases. As of epidemiological Week 11, a total of 0 deaths due to dengue have been reported.

#### **Ecuador**

As of Week 13 of 2025, 1257 cases with 8 deaths were reported, for a total of 13061 cases and 21 deaths to date.

## **El Salvador**

As of epidemiological Week 11 of 2025, 101 dengue cases were newly reported, leading to a total of 967 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

# Grenada

As of Week 10 of 2025, 6 cases with 0 deaths were reported, for a total of 38 cases and 0 deaths to date.

# Guadeloupe

In Week 7 of 2025, 470 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 7) is 3190. There have now been 0 deaths reported in 2025.

#### Guatemala

As of epidemiological Week 11 of 2025, 792 dengue cases were newly reported, leading to a total of 9622 cases. 0 dengue-related deaths were reported this week, for a total of 4 dengue-related deaths to date.

## Guyana

As of epidemiological Week 7 of 2025, 333 dengue cases were newly reported, leading to a total of 6012 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

#### **Honduras**

As of epidemiological Week 12 of 2025, 466 dengue cases were newly reported, leading to a total of 3909 cases. 0 dengue-related deaths were reported this week, for a total of 4 dengue-related deaths to date.

#### Jamaica

In Week 11 of 2025, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 11) is 104. There have now been 0 deaths reported in 2025.

## Martinique

As of epidemiological Week 7 of 2025, 50 dengue cases were newly reported, leading to a total of 393 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

#### Mexico

As of Week 13 of 2025, 1067 cases with 0 deaths were reported, for a total of 26247 cases and 12 deaths to date.

#### Montserrat

As of epidemiological Week 4 of 2025, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

### Nicaragua

As of epidemiological Week 4 of 2025, 1432 dengue cases were newly reported, leading to a total of 5702 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

# **Panama**

As of Week 12 of 2025, 249 cases with 1 death was reported, for a total of 4871 cases and 4 deaths to date.

## **Paraguay**

As of epidemiological Week 12 of 2025, 1016 dengue cases were newly reported, leading to a total of 11678 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

#### Peru

During epidemiological Week 12 of 2025, there were 2542 dengue cases reported. 1 dengue-related deaths were reported in Week 12. The cumulative number of dengue cases reported to date is 22395 cases. As of epidemiological Week 12, a total of 26 deaths due to dengue have been reported.

#### **Puerto Rico**

As of epidemiological Week 9 of 2025, 1021 dengue cases were newly reported, leading to a total of 1021 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

## Saint Barthelemy

As of Week 7 of 2025, 1 case with 0 deaths were reported, for a total of 18 cases and 0 deaths to date.

#### Saint Kitts and Nevis

In Week 12 of 2025, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 12) is 4. There have now been 0 deaths reported in 2025.

#### Saint Lucia

During epidemiological Week 10 of 2025, there were 2 dengue cases reported. 0 dengue-related deaths were reported in Week 10. The cumulative number of dengue cases reported to date is 20 cases. As of epidemiological Week 10, a total of 0 deaths due to dengue have been reported.

### **Saint Martin**

As of Week 7 of 2025, 0 cases with 0 deaths were reported, for a total of 70 cases and 0 deaths to date.

# **Saint Vincent and the Grenadines**

During epidemiological Week 8 of 2025, there were 2 dengue cases reported. 0 dengue-related deaths were reported in Week 8. The cumulative number of dengue cases reported to date is 2 cases. As of epidemiological Week 8, a total of 0 deaths due to dengue have been reported.

#### Sint Maarten

As of epidemiological Week 40 of 2024, 4 dengue cases were newly reported, leading to a total of 144 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

# Suriname

As of epidemiological Week 20 of 2024, 10 dengue cases were newly reported, leading to a total of 95 cases. 0 dengue-related deaths were reported this week, for a total of 3 dengue-related deaths to date.

# **Trinidad and Tobago**

As of Week 48 of 2024, 202 cases with 0 deaths were reported, for a total of 2004 cases and 19 deaths to date.

# **Turks and Caicos Islands**

As of epidemiological Week 8 of 2025, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

#### **United States of America**

In Week 12 of 2025, 5 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2025 (as of epidemiological week 12) is 172. There have now been 0 deaths reported in 2025.

# Uruguay

As of Week 7 of 2025, 0 cases with 0 deaths were reported, for a total of 0 cases and 0 deaths to date.

# Venezuela - no updates

As of Week 21 of 2023, 384 cases with 2 deaths were reported, for a total of 4809 cases and 8 deaths to date.

# Virgin Islands UK

As of Week 8 of 2025, 0 cases with 0 deaths were reported, for a total of 9 cases and 0 deaths to date.

# Virgin Islands US

During epidemiological Week 12 of 2025, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 12. The cumulative number of dengue cases reported to date is 40 cases. As of epidemiological Week 12, a total of 0 deaths due to dengue have been reported.
