
Update on the Dengue Situation in the Western Pacific Region & the Americas

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. [Western Pacific region data](#) are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People's Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by **WHO's Division of Pacific Technical Support**. Data from the Americas are drawn from the **Pan American Health Organization's** [PLISA Health Information Platform for the Americas](#). Data for Myanmar, Malaysia, Thailand, and Indonesia are drawn from [ASEAN Biological Threats Surveillance Centre](#), and for Hong Kong SAR, its [Centre for Health Protection, Department of Health](#). Information is reported based on countries' standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

Follow us on:

Western Pacific - Northern Atmosphere

Cambodia

As of epidemiological Week 17 of 2026, 2228 dengue cases were newly reported, leading to a total of 6566 cases. 2 dengue-related deaths were reported this week, for a total of 5 dengue-related deaths to date.

China

As of epidemiological Week 18 of 2026, 137 dengue cases were newly reported, leading to a total of 416 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Hong Kong SAR, China

During epidemiological Week 17 of 2026, there were 7 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 17 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Indonesia

As of epidemiological Week 18 of 2026, 127 dengue cases were newly reported, leading to a total of 20083 cases. 2 dengue-related deaths were reported this week, for a total of 36 dengue-related deaths to date.

Laos PDR

In Week 18 of 2026, 34 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 18) is 1093. There have now been 0 deaths reported in 2026.

Malaysia

As of epidemiological Week 17 of 2026, 1475 dengue cases were newly reported, leading to a total of 20090 cases. 2 dengue-related deaths were reported this week, for a total of 18 dengue-related deaths to date.

Myanmar

During epidemiological Week 17 of 2026, there were 61 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 572 cases. As of epidemiological Week 17, a total of 4 deaths due to dengue have been reported.

Philippines – no updates

During Epidemiological Week 48 of 2023, there were 2607 dengue cases reported. 82 dengue-related deaths were reported in Week 48. The cumulative number of dengue cases reported to date is 195603 cases. As of Epidemiological Week 48, a total of 657 deaths due to dengue have been reported.

Singapore

As of epidemiological Week 17 of 2026, 20 dengue cases were newly reported, leading to a total of 541 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Thailand

In Week 17 of 2026, 377 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 17) is 6808. There have now been 6 deaths reported in 2026.

Viet Nam

As of epidemiological Week 17 of 2026, 4059 dengue cases were newly reported, leading to a total of 35986 cases. 0 dengue-related deaths were reported this week, for a total of 4 dengue-related deaths to date.

Western Pacific – Southern Atmosphere

Australia

In Week 20 of 2026, 26 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 20) is 447. There have now been 0 deaths reported in 2026.

Cook Islands – no updates

As of Week 17 of 2022, 4 cases with 0 deaths were reported, for a total of 23 cases and 0 deaths to date.

French Polynesia

During epidemiological Week 17 of 2026, there were 6 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 24 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

New Caledonia

During epidemiological Week 15 of 2026, there were 101 dengue cases reported. 0 dengue-related deaths were reported in Week 15. The cumulative number of dengue cases reported to date is 794 cases. As of epidemiological Week 15, a total of 0 deaths due to dengue have been reported.

As of Week 19 of 2026, 79 cases with 0 deaths were reported, for a total of 1522 cases and 0 deaths to date.

Wallis and Futuna – no updates

As of Week 45 of 2021, 0 cases with 0 deaths were reported, for a total of 68 cases and 0 deaths to date.

The Americas

Antigua and Barbados

During epidemiological Week 17 of 2026, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 4 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Argentina

As of epidemiological Week 17 of 2026, 3 dengue cases were newly reported, leading to a total of 49 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Aruba

As of epidemiological Week 44 of 2025-11-01 00:00:00, 0 dengue cases were newly reported, leading to a total of 14 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Bahamas

As of Week 17 of 2026, 0 cases with 0 deaths were reported, for a total of 1 cases and 0 deaths to date.

Barbados

During epidemiological Week 17 of 2026, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 26 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Belize

During epidemiological Week 15 of 2026, there were 11 dengue cases reported. 0 dengue-related deaths were reported in Week 15. The cumulative number of dengue cases reported to date is 317 cases. As of epidemiological Week 15, a total of 0 deaths due to dengue have been reported.

Bermuda

As of epidemiological Week 17 of 2026, 0 dengue cases were newly reported, leading to a total of 1 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Bolivia

As of epidemiological Week 17 of 2026, 1434 dengue cases were newly reported, leading to a total of 46745 cases. 0 dengue-related deaths were reported this week, for a total of 1 dengue-related deaths to date.

Brazil

During epidemiological Week 17 of 2026, there were 49493 dengue cases reported. 12 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 788994 cases. As of epidemiological Week 17, a total of 193 deaths due to dengue have been reported.

Canada

As of epidemiological Week 17 of 2026, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Cayman Islands

As of Week 17 of 2026, 0 cases with 0 deaths were reported, for a total of 0 cases and 0 deaths to date.

Chile

In Week 17 of 2026, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 17) is 17. There have now been 0 deaths reported in 2026.

Colombia

As of Week 17 of 2026, 2008 cases with 3 deaths were reported, for a total of 37413 cases and 29 deaths to date.

Costa Rica

During epidemiological Week 17 of 2026, there were 44 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 666 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Cuba

During epidemiological Week 50 of 2025, there were 2855 dengue cases reported. 5 dengue-related deaths were reported in Week 50. The cumulative number of dengue cases reported to date is 28850 cases. As of epidemiological Week 50, a total of 17 deaths due to dengue have been reported.

Dominican Republic

During epidemiological Week 17 of 2026, there were 27 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 386 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Ecuador

As of epidemiological Week 17 of 2026, 987 dengue cases were newly reported, leading to a total of 11120 cases. 0 dengue-related deaths were reported this week, for a total of 11 dengue-related deaths to date.

El Salvador

As of epidemiological Week 17 of 2026, 93 dengue cases were newly reported, leading to a total of 1825 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Grenada

As of Week 17 of 2026, 2 cases with 0 deaths were reported, for a total of 58 cases and 0 deaths to date.

Guadeloupe

In Week 17 of 2026, 17 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 17) is 332. There have now been 0 deaths reported in 2026.

Guatemala

During epidemiological Week 17 of 2026, there were 760 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 11881 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Guyana

During epidemiological Week 17 of 2026, there were 1353 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 31957 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Honduras

As of Week 17 of 2026, 172 cases with 0 deaths were reported, for a total of 2985 cases and 0 deaths to date.

Jamaica

In Week 17 of 2026, 4 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 17) is 99. There have now been 0 deaths reported in 2026.

Martinique

During epidemiological Week 17 of 2026, there were 30 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 1264 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Mexico

In Week 17 of 2026, 1046 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 17) is 19476. There have now been 4 deaths reported in 2026.

Montserrat

As of epidemiological Week 17 of 2026, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Nicaragua

As of Week 4 of 2025, 1432 cases with 0 deaths were reported, for a total of 5702 cases and 0 deaths to date.

Panama

As of Week 17 of 2026, 121 cases with 1 deaths were reported, for a total of 3072 cases and 10 deaths to date.

Paraguay

As of epidemiological Week 17 of 2026, 357 dengue cases were newly reported, leading to a total of 7545 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Peru

In Week 17 of 2026, 1623 dengue cases and 2 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 17) is 16225. There have now been 20 deaths reported in 2026.

Puerto Rico

In Week 17 of 2026, 31 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 17) is 605. There have now been 1 deaths reported in 2026.

Saint Barthelemy

As of epidemiological Week 17 of 2026, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Saint Kitts and Nevis

As of Week 13 of 2026, 1 case with 0 deaths were reported, for a total of 13 cases and 0 deaths to date.

Saint Lucia

As of epidemiological Week 17 of 2026, 0 dengue cases were newly reported, leading to a total of 4 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Saint Martin

During epidemiological Week 17 of 2026, there were 3 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 7 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Saint Vincent and the Grenadines

As of Week 17 of 2026, 0 cases with 0 deaths were reported, for a total of 3 cases and 0 deaths to date.

Sint Maarten

During epidemiological Week 17 of 2025, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Suriname

As of Week 17 of 2026, 5 cases with 0 deaths were reported, for a total of 413 cases and 0 deaths to date.

Trinidad and Tobago

During epidemiological Week 17 of 2026, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 43 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.

Turks and Caicos Islands

In Week 12 of 2026, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 12) is 8. There have now been 0 deaths reported in 2026.

United States of America

As of Week 17 of 2026, 2 cases with 0 deaths were reported, for a total of 107 cases and 0 deaths to date.

Uruguay

As of Week 17 of 2026, 0 cases with 0 deaths were reported, for a total of 0 cases and 0 deaths to date.

Venezuela

In Week 17 of 2026, 234 dengue cases and 6 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 17) is 5863. There have now been 6 deaths reported in 2026.

Virgin Islands UK

As of epidemiological Week 17 of 2026, 0 dengue cases were newly reported, leading to a total of 11 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Virgin Islands US

During epidemiological Week 17 of 2026, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 17. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 17, a total of 0 deaths due to dengue have been reported.
