Update on the Dengue Situation in the Western Pacific Region & the Americas

This report describes the epidemiology of dengue in the **World Health Organization** Western Pacific Region and the Americas. [Western Pacific region data](#) are compiled from open sources (national indicator-based surveillance systems) with the exception of Cambodia, Lao People's Democratic Republic, Viet Nam, and the Philippines, where data are provided from WHO Country Offices, and for Pacific Island Countries, where syndromic surveillance data are provided by **WHO's Division of Pacific Technical Support**. Data from the Americas are drawn from the **Pan American Health Organization's** [PLISA Health Information Platform for the Americas](#). Data for Myanmar, Malaysia, Thailand, and Indonesia are drawn from [ASEAN Biological Threats Surveillance Centre](#), and for Hong Kong SAR, its [Centre for Health Protection, Department of Health](#). Information is reported based on countries' standard dengue case definitions. Due to differences in surveillance methods and reporting practices, a comparison of trends between countries and areas is not possible, however national trends can be observed over time.

Follow us on:

Western Pacific - Northern Atmosphere

Cambodia

In Week 22 of 2026, 2028 dengue cases and 3 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 22) is 10126. There have now been 12 deaths reported in 2026.

China

As of Week 22 of 2026, 222 cases with 0 deaths were reported, for a total of 553 cases and 0 deaths to date.

Hong Kong SAR, China

As of Week 21 of 2026, 4 cases with 0 deaths were reported, for a total of 21 case and 0 deaths to date.

Indonesia

During epidemiological Week 24 of 2026, there were 1469 dengue cases reported. 5 dengue-related deaths were reported in Week 24. The cumulative number of dengue cases reported to date is 42179 cases. As of epidemiological Week 24, a total of 113 deaths due to dengue have been reported.

Laos PDR

In Week 22 of 2026, 80 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 22) is 1360. There have now been 0 deaths reported in 2026.

Malaysia

As of Week 20 of 2026, 2053 cases with 1 death were reported, for a total of 26973 cases and 23 deaths to date.

Myanmar

In Week 22 of 2026, 192 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 22) is 1141. There have now been 4 deaths reported in 2026.

Philippines – no updates

During Epidemiological Week 48 of 2023, there were 2607 dengue cases reported. 82 dengue-related deaths were reported in Week 48. The cumulative number of dengue cases reported to date is 195603 cases. As of Epidemiological Week 48, a total of 657 deaths due to dengue have been reported.

Singapore

As of Week 21 of 2026, 67 cases with 0 deaths were reported, for a total of 739 cases and 0 deaths to date.

Thailand

In Week 22 of 2026, 554 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 22) is 8915. There have now been 8 deaths reported in 2026.

Viet Nam

During epidemiological Week 22 of 2026, there were 4059 dengue cases reported. 0 dengue-related deaths were reported in Week 22. The cumulative number of dengue cases reported to date is 35986 cases. As of epidemiological Week 22, a total of 4 deaths due to dengue have been reported.

Western Pacific – Southern Atmosphere

Australia

In Week 24 of 2026, 47 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 24) is 507. There have now been 0 deaths reported in 2026.

Cook Islands – no updates

As of Week 17 of 2022, 4 cases with 0 deaths were reported, for a total of 23 cases and 0 deaths to date.

French Polynesia

As of epidemiological Week 20 of 2026, 1 dengue case was newly reported, leading to a total of 25 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

New Caledonia

As of Week 22 of 2026, 88 cases with 0 deaths were reported, for a total of 2032 cases and 0 deaths to date.

Wallis and Futuna – no updates

As of Week 45 of 2021, 0 cases with 0 deaths were reported, for a total of 68 cases and 0 deaths to date.

The Americas

Antigua and Barbados

As of epidemiological Week 22 of 2026, 0 dengue cases were newly reported, leading to a total of 4 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Argentina

During epidemiological Week 22 of 2026, there were 3 dengue cases reported. 0 dengue-related deaths were reported in Week 22. The cumulative number of dengue cases reported to date is 55 cases. As of epidemiological Week 22, a total of 0 deaths due to dengue have been reported.

Aruba

As of epidemiological Week 44 of 2025-11-01 00:00:00, 0 dengue cases were newly reported, leading to a total of 14 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Bahamas

As of epidemiological Week 20 of 2026, 0 dengue cases were newly reported, leading to a total of 1 case. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Barbados

In Week 22 of 2026, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 22) is 26. There have now been 0 deaths reported in 2026.

Belize

During epidemiological Week 15 of 2026, there were 11 dengue case reported. 0 dengue-related deaths were reported in Week 15. The cumulative number of dengue cases reported to date is 317 cases. As of epidemiological Week 15, a total of 0 deaths due to dengue have been reported.

Bermuda

As of Week 20 of 2026, 0 cases with 0 deaths were reported, for a total of 1 case and 0 deaths to date.

Bolivia

During epidemiological Week 22 of 2026, there were 296 dengue cases reported. 0 dengue-related deaths were reported in Week 22. The cumulative number of dengue cases reported to date is 50446 cases. As of epidemiological Week 22, a total of 1 death due to dengue have been reported.

Brazil

During epidemiological Week 22 of 2026, there were 30606 dengue cases reported. 7 dengue-related deaths were reported in Week 22. The cumulative number of dengue cases reported to date is 994541 case. As of epidemiological Week 22, a total of 241 death due to dengue have been reported.

Canada

As of epidemiological Week 22 of 2026, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Cayman Islands

During epidemiological Week 20 of 2026, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 20. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 20, a total of 0 deaths due to dengue have been reported.

Chile

During epidemiological Week 22 of 2026, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 22. The cumulative number of dengue cases reported to date is 27 cases. As of epidemiological Week 22, a total of 0 deaths due to dengue have been reported.

Colombia

As of epidemiological Week 22 of 2026, 2341 dengue case was newly reported, leading to a total of 48343 cases. 1 dengue-related deaths were reported this week, for a total of 36 dengue-related deaths to date.

Costa Rica

In Week 22 of 2026, 152 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 22) is 1117. There have now been 0 deaths reported in 2026.

Cuba

During epidemiological Week 50 of 2025, there were 2855 dengue cases reported. 5 dengue-related deaths were reported in Week 50. The cumulative number of dengue cases reported to date is 28850 cases. As of epidemiological Week 50, a total of 17 deaths due to dengue have been reported.

Dominican Republic

In Week 22 of 2026, 152 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 22) is 1117. There have now been 0 deaths reported in 2026.

Ecuador

During epidemiological Week 22 of 2026, there were 1110 dengue cases reported. 2 dengue-related deaths were reported in Week 22. The cumulative number of dengue cases reported to date is 16527 cases. As of epidemiological Week 22, a total of 17 deaths due to dengue have been reported.

El Salvador

During epidemiological Week 22 of 2026, there were 55 dengue cases reported. 0 dengue-related deaths were reported in Week 22. The cumulative number of dengue cases reported to date is 2142 cases. As of epidemiological Week 22, a total of 0 deaths due to dengue have been reported.

Grenada

During epidemiological Week 22 of 2026, there were 5 dengue cases reported. 0 dengue-related deaths were reported in Week 22. The cumulative number of dengue cases reported to date is 80 cases. As of epidemiological Week 22, a total of 0 deaths due to dengue have been reported.

Guadeloupe

As of epidemiological Week 20 of 2026, 17 dengue cases were newly reported, leading to a total of 383 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Guatemala

As of epidemiological Week 22 of 2026, 319 dengue cases were newly reported, leading to a total of 14696 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Guyana

As of Week 22 of 2026, 0 cases with 0 deaths were reported, for a total of 35768 cases and 0 deaths to date.

Honduras

As of epidemiological Week 22 of 2026, 199 dengue cases were newly reported, leading to a total of 4014 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Jamaica

As of epidemiological Week 22 of 2026, 0 dengue cases were newly reported, leading to a total of 114 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Martinique

As of epidemiological Week 20 of 2026, 30 dengue cases were newly reported, leading to a total of 1354 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Mexico

As of epidemiological Week 22 of 2026, 1317 dengue cases were newly reported, leading to a total of 25621 case. 0 dengue-related deaths were reported this week, for a total of 4 dengue-related deaths to date.

Montserrat

In Week 20 of 2026, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 20) is 0. There have now been 0 deaths reported in 2026.

Nicaragua

As of Week 4 of 2025, 1432 cases with 0 deaths were reported, for a total of 5702 cases and 0 deaths to date.

Panama

During epidemiological Week 23 of 2026, there were 180 dengue cases reported. 0 dengue-related deaths were reported in Week 23. The cumulative number of dengue cases reported to date is 4217 cases. As of epidemiological Week 23, a total of 10 deaths due to dengue have been reported.

Paraguay

During epidemiological Week 22 of 2026, there were 175 dengue cases reported. 0 dengue-related deaths were reported in Week 22. The cumulative number of dengue cases reported to date is 8422 cases. As of epidemiological Week 22, a total of 0 deaths due to dengue have been reported.

Peru

In Week 22 of 2026, 2082 dengue cases and 2 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 22) is 25888. There have now been 31 death reported in 2026.

Puerto Rico

As of Week 23 of 2026, 31 case with 0 deaths were reported, for a total of 766 cases and 2 deaths to date.

Saint Barthelemy

In Week 20 of 2026, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 20) is 0. There have now been 0 deaths reported in 2026.

Saint Kitts and Nevis

As of Week 13 of 2026, 1 case with 0 deaths were reported, for a total of 13 cases and 0 deaths to date.

Saint Lucia

During epidemiological Week 22 of 2026, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 22. The cumulative number of dengue cases reported to date is 4 cases. As of epidemiological Week 22, a total of 0 deaths due to dengue have been reported.

Saint Martin

In Week 20 of 2026, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 20) is 7. There have now been 0 deaths reported in 2026.

Saint Vincent and the Grenadines

As of Week 22 of 2026, 0 cases with 0 deaths were reported, for a total of 3 cases and 0 deaths to date.

Sint Maarten

During epidemiological Week 28 of 2025, there were 2 dengue cases reported. 0 dengue-related deaths were reported in Week 28. The cumulative number of dengue cases reported to date is 8 cases. As of epidemiological Week 28, a total of 0 deaths due to dengue have been reported.

Suriname

During epidemiological Week 19 of 2026, there were 2 dengue cases reported. 0 dengue-related deaths were reported in Week 19. The cumulative number of dengue cases reported to date is 418 cases. As of epidemiological Week 19, a total of 0 deaths due to dengue have been reported.

Trinidad and Tobago

During epidemiological Week 22 of 2026, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 22. The cumulative number of dengue cases reported to date is 43 cases. As of epidemiological Week 22, a total of 0 deaths due to dengue have been reported.

Turks and Caicos Islands

In Week 12 of 2026, 0 dengue cases and 0 deaths were reported. The cumulative number of cases reported in 2026 (as of Week 12) is 8. There have now been 0 deaths reported in 2026.

United States of America

As of epidemiological Week 22 of 2026, 7 dengue cases were newly reported, leading to a total of 136 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Uruguay

As of epidemiological Week 22 of 2026, 0 dengue cases were newly reported, leading to a total of 0 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Venezuela

As of Week 22 of 2026, 284 cases with 0 deaths were reported, for a total of 7150 cases and 6 deaths to date.

Virgin Islands UK

As of epidemiological Week 20 of 2026, 4 dengue cases were newly reported, leading to a total of 15 cases. 0 dengue-related deaths were reported this week, for a total of 0 dengue-related deaths to date.

Virgin Islands US

During epidemiological Week 22 of 2026, there were 0 dengue cases reported. 0 dengue-related deaths were reported in Week 22. The cumulative number of dengue cases reported to date is 0 cases. As of epidemiological Week 22, a total of 0 deaths due to dengue have been reported.
